

Contents of issue 3 vol. LIV

- 171 *Preface*
- 173 Z. BASISTA, *Simulation investigation of an active vibration protection system of an operator of a hand-held percussive tool*
- 189 M. CHODŹKO, K. MARCHELEK, A. PARUS, *Self-excited vibrations counteraction in machine tool – cutting process system using controllable eliminator of vibration*
- 203 J. KONIECZNY, J. KOWAL, J. PLUTA, A. PODSIADŁO, *Laboratory research of the controllable hydraulic damper*
- 223 M. PIETRZAKOWSKI, *Dynamic effects of material damping in active laminates reinforced with piezoceramic fibers*
- 233 B. SAPIŃSKI, S. BYDOŃ, *Magnetorheological rotary brake: analysis, design considerations and experimental evaluation*
