

Contents of issue 4 vol. LI

- 351 S. OCHELSKI, R. GIELETA, A. KICZKO, *Investigations of Fatigue Strength of Sandwich Plates*
- 363 Ł. FIGIEL, M. KAMIŃSKI, *Numerical analysis of the damage evolution in a composite pipe joint under cyclic static axial tension*
- 381 R. ADAMCZYK, T. ŁODYGOWSKI, *Numerical Modeling of Laboratory Test of Plain Concrete Under Uniaxial Impact Compression*
- 399 B. SAPIŃSKI, *Dynamic characteristics of an experimental mr fluid damper*
- 419 W. SZCZEPIŃSKI, *On the movement of granular materials in bins and hoppers Part I: Two-dimensional problems*
- 433 W. SZCZEPIŃSKI, *On the movement of granular materials in bins Part II: Three-dimensional problems*
- 445 R. GRĄDZKI, K. KOWAL-MICHALSKA, *Stability and ultimate load of three-layered plates – a parametric study*
- 461 Z. MRÓZ, I. SIELAMOWICZ, *Deformation zones in granular materials in hoppers during filling and emptying processes*

FROM THE EDITORIAL BOARD

The Editorial Committee wishes to express many thanks and appreciation to all the referees, listed below, for their valuable opinions concerning papers submitted to the Engineering Transactions in 2003.

R. Będziński (Wrocław), A. Dresher (Minneapolis, USA), M. A. Glinicki (Warszawa), W. Grzeškiewicz (Warszawa), T. Lewiński (Warszawa), A. Muc (Kraków), J. Zawada (Warszawa).
