

## Contents of issue 1 vol. XLIX

- 3 M. LECHMAN and P. M. LEWIŃSKI, *Generalized section model for analysis of reinforced concrete chimney weakened by openings*
- 29 N. AIT HOCINE and M. NAIT ABDELAZIZ, *A simple single specimen method for measuring the fracture surface energy of Rubber materials*
- 47 A. GRZYB, M. KOWALSKI, *Optimisation of five-link suspension mechanism of a vehicle solid tyres*
- 65 J. JĘDRYSIAK, *A contribution to the modelling of dynamic problems for periodic plates*
- 89 J. MIASTKOWSKI, R. SZCZEBIOT, *Yield surfaces and criteria of plastic yielding for a strain hardening material. Part 1. Experimental study*
- 99 J. MIASTKOWSKI, R. SZCZEBIOT, *Yield surfaces and criteria of plastic yielding for a strain hardening material. Part 2. Theoretical analysis*
- 109 ANNOUNCEMENT
