

## CONTENTS OF ISSUE 1 VOL. XLVI

S. JEMIOŁO and J.J. TELEGA, <i>Fabric tensors in bone mechanics</i>	3
W. ZOWCZAK, <i>Plastic design of elements of bolt and pin joints subjected to compressive loads</i>	27
M. NOWAK, <i>Stability derivatives cast in the frame of subsonic unsteady dynamics</i>	45
J. JĘDRYSIAK, <i>On dynamics of thin plates with a periodic structure</i>	73
J. JĘDRYSIAK, <i>Free vibrations of thin periodic plates</i>	89
M. PYRZ, <i>Optimization of variable thickness plates by genetic algorithms</i>	115
F. REJMUND and P. RANACHOWSKI, <i>Experimental methods of determination of short and long-term mechanical strength of ceramic insulators</i>	131
